Faust – Summer Theatre and Creative Writing

DSC Taikoo Shing campus

1-Week program

\$3,280

Summer Theatre:

Each week, under the careful guidance of our experienced and enthusiastic leaders, children will explore a different drama-based theme, play or topic. Workshops are tailored to the needs and age of the children and new content is created each week so that children can do multiple courses! The week starts with ice-breaking activities helping the children to become comfortable in their new environment. The workshops then focus on development of performance skills such as improvisation, devising, clarity of expression, vocal projection, movement or script work. Younger actors will focus on developing confidence using the actor's tools – the voice, body and imagination.

Parents will be updated about what the group has been doing through a mid-week email outlining workshop content, as well as being invited to the end of week open session, subject to prevailing government guidelines. Young members will share their learning and older members will demonstrate their skills and knowledge through a performance.

Creative Writing:

Each week, under the careful instruction of our experienced teachers, children look at different aspects of creative writing including metaphors, similes, dialogue, poetry, descriptive techniques and genre writing, to list but a few. Whether a student is an aspiring writer or a novice, our students will have plenty to write about!

Our limited class size allows plenty of time for discussion, as well as group and individual feedback. At the end of the lesson we review what we have done and share what we have learnt and how we will apply this in our writing. At the end of each programme, children will bring their portfolio of written work home to share with parents.
